Journal - Office of Legislative Counsel

Page 4

Wednesday - 29 January 1975

CONFIDENTIAL

25X1 [redacted]  
25X1 12. [redacted] Bob Hull, State Department, called and discussed the changes to the Foreign Service Retirement System which were prepared in the last Congress. He said that the provision to establish a procedure to facilitate the Foreign Service Act to changes of provisions in the Civil Service System subsidy identical to provisions in their System was fully coordinated with the Office of Management and Budget. He said their proposal was pending when Congress adjourned. Hull asked whether we were getting any indications from OMB that due to the President's austere economic program, they will not clear the Foreign Service Retirement Act submissions when they are resubmitted by State. I told him that we had not had any indications to this effect and would go ahead with our submission. Arrangements were made to pick up from Hull a copy of S. 2791, their bill as it passed the Senate in the last session of the 93rd Congress.

25X1 13. [redacted] Met with Jim Kenney, Administrative Assistant to Representative Herbert E. Harris, and discussed with him the reasons why the Agency could not provide two copies of the Agency telephone directory as requested by Harris. Kenney said he fully understood and that the request had been made routinely. I left with him a copy of our brochure on the Agency and extended an invitation to arrange for Harris to visit the Agency should he so desire. I also extended the full cooperation of our Office on any matters of Agency concern.

25X1 14. [redacted] Left with Bill Short, House Armed Services Committee staff, a weekly compilation of press clippings of interest to the 25X1 Committee.

25X1 [redacted]
